PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience building scalable React.js applications; led a 6-engineer team delivering global e-commerce platforms. MS in Computer Science (Illinois Institute of Technology) with 2 years of study and work experience in Chicago, USA; focused on architecture and leadership.

EXPERIENCE

Freelance Full-Stack Developer

Freelance

Nov 2025 - Present

Ahmedabad, India (Remote)

- Designed, developed, and deployed scalable web applications and websites for clients and personal products.
- Managed complete project lifecycles including development, API integration, optimization, testing, and deployment.

Software Engineer

Openxcell Pvt. Ltd.

March 2022 - Oct 2025

Ahmedabad, India (Hybrid)

- Built and optimized a scalable high-performance e-commerce frontend using **JavaScript, TypeScript, ReactJS**, improving user engagement and conversions.
- Developed secure role-based access portals and implemented RTL localization features, including text direction, number formatting, and date localization for global accessibility.
- Translated Figma designs into pixel-perfect responsive web modules while building and optimizing Laravel **REST APIs** for product discovery and reservation workflows.
- Led a team of 6 developers as Senior Developer, conducting code reviews, ensuring project quality, and aligning development with project goals.

Software Engineer

AugustCode Solutions Pvt. Ltd.

April 2021 - Oct 2021

Ahmedabad, India

- Developed and maintained scalable Drupal web platforms, including four Drupal 9 websites integrated with a Drupal 7 parent portal via APIs, while leading PHP/Drupal version upgrades and performance optimization.
- As a Senior Developer, led a team of 6 team members. Oversaw the team's work and communicated regularly with the PM and Client.
- Got a very good command over various technical and project-related tools like - **Visual Studio Code, FileZilla, Git, Zoho, Slack, Zoom** etc.

Web Developer

Illinois Institute of Technology

May 2019 - Jun 2020

Chicago, USA

- Maintained a website written in JSP scripts running on **Drupal CMS** of PHP 7.x development experience and administered **MySQL** databases to improve efficiency of the website by **90%**.
- Worked with web development team to provide the RESTful Web Services with **MVC Framework** and built responsive UI.

Jr. Software Developer

Meditab Software India Pvt. Ltd.

Jan 2018 - Jun 2018

Ahmedabad, India

- Improved backend design by implementing PHP modules utilizing **jQuery** in JavaScript.
- Worked on Scrum **Agile process** and used **JIRA** for tracking updates and Git SourceTree as code repository.

EDUCATION

Illinois Institute of Technology

Master's in Computer Science

Aug 2018 - May 2020

Chicago, USA

GPA - 3.22

LDRP Institute of Technology and Research

Bachelor's in Computer Engineering

Aug 2014 - May 2018

Gandhinagar

GPA - 3.66

PROJECTS

Hawak (E-commerce Application)

- Reduced initial page load time by 65% by optimizing bundle size, lazy loading modules, and caching assets, improving session retention and lowering bounce rate.
- Implemented a robust API integration strategy for the frontend, enabling efficient data flow and enhanced functionality. This includes an AWS API based module for efficient image upload and management.
- Fostered strong client relationships through open communication, timely updates, and proactive problem-solving.

Talent ATS (Application Tracking System)

- Led frontend implementation of a design-system-driven React UI from Figma, standardizing reusable components and reducing UI defects and rework across releases.
- Collaborated closely with a cross-functional team to ensure seamless integration with back-end systems and optimize overall system performance.
- Utilized Jira to effectively manage project tasks, track progress, and facilitate collaboration among team members.

TECHNICAL SKILLS

- Web Technologies:** ReactJS, HTML, CSS, JavaScript, jQuery, XML, AJAX, Bootstrap
- Programming:** PHP, Java, Python
- Databases:** MySQL, MSSQL, mongoDB
- Software Tools:** GitHub, Visual Studio, Figma, Postman, Bugherd, Asana, Gitlab, Adobe Photoshop, WordPress, MS Office, Drupal CMS, Laravel, Notepad++, Sublime Text, Slack, Zoho, Canva, Wamp Server

STRENGTHS

Adaptable

Communication skills

Problem Solving

Critical Thinking

Quality-focused

Solution-Oriented

Collaborative contributor
